

CT SUMMATION ADVANCED SEARCHING

DESCRIPTION: This one-hour session will provide trainees with the tools to build on their basic CT Summation experience to perform advanced searching techniques across their entire case. This session will cover anytext v. fulltext searching, compound searches, using wildcards, and filtered fuzzy searching.

AUDIENCE: Attorneys, paralegals, document reviewers, and litigation support personnel.

PREREQUISITES: Trainees should have basic end-user CT Summation experience.

EQUIPMENT NEEDED: None.

REGISTRATION: To arrange training, please call 312.251.4440 or email training@rosentech.net.
